

Ecosystem Test Study Guide

Everything you need to know about your ecosystem test!

Vocabulary: Know definitions and be able to provide an example

- Ecosystem
- Biotic factors
- Abiotic factors
- Producer
- Consumer
 - Carnivore
 - Herbivore
 - Omnivore
- Decomposer
- Food web
- Energy

Main Ideas

- I can identify biotic and abiotic factors in an ecosystem.
- I can explain different interactions in an ecosystem.
- I can classify organisms as a producer, consumer, or decomposer.
- I can explain the 4 ways animals need energy for survival.
- I can identify where energy comes from in a food web.
- I can explore a food web and understand what it means.

Where can I find all this information?

In your science journal! Almost all this information is written in your science journal. Some of it is also from different handouts, articles, and activities we have done in class. Those are either glued into your journal, tucked into your journal, or in your science folder.
